# About HomzMe

Engaged in the eco-conscious manufacturing and global export of environmentally friendly products, we uphold sustainable practices throughout our processes. Among our diverse offerings are traditional coir mats, coir mats featuring vinyl or latex backing, rubber mats, rubber coir mats, polypropylene mats, and a selection of rugs. With a rich heritage spanning a decade in manufacturing and a profound understanding of marketing dynamics, we are committed to fostering ongoing innovation within our product portfolio.

## Innovative Doormat Designs for a Global Market

Based in India and Canada, our seasoned team of designers is dedicated to refining the craft of reinventing doormats with their innovative design approach. The outcome? Over 2000 stunning designs, each imbued with allure, sophistication, and individuality.

## Eco-Friendly Coir Doormats: From Nature to Your Doorstep

We deliver eco-friendly products straight to you. Our coir doormats originate from the bountiful coconut tree, with their tough, durable, and long-lasting quality achieved through processing coconut husks.

# Vinyl Or Latex Backed Coir Mats

Coir mats with vinyl or latex backing are crafted by affixing a layer of either material to the rear of the coir mat. This additional layer enhances the mat's durability and stability, rendering it suitable for high-traffic spaces. Moreover, the vinyl or latex backing serves to prevent slips and slides, thereby augmenting safety. Renowned for their capacity to efficiently capture dirt and moisture, these mats are particularly well-suited for use as entryway mats.

# Heritage Weave Coir Mats

Experience the timeless elegance of our Heritage Weave Coir Mats, meticulously handcrafted to embody tradition and artisanal skill.

## Heritage Weave: Hollander Mat

Hollander Coir Mats, also referred to as Corridor Mats, derive their name from the weaving technique originating from Holland. These mats are meticulously crafted on specialized frames, where natural coir fibers are intricately woven into diverse patterns.

*Style Options: Natural, Bleached, Dyed, and Assorted Shades*

**Standard Size:** 35 x 60 CM, 40 x 60 CM, 45 x 75 CM, 60 x 90 CM

## Heritage Weave: Natural Coir Fiber

Coir Fibre Mats are renowned for their elegance and are considered the epitome of door mats. Their thick coir fibre pile makes them perfect for showcasing printed designs.

**Standard Size:** 40 x 60 CM, 40 x 70 CM, 45 x 75 CM, 60 X 90 CM

# Coir Rope Mat Or Knot Mats

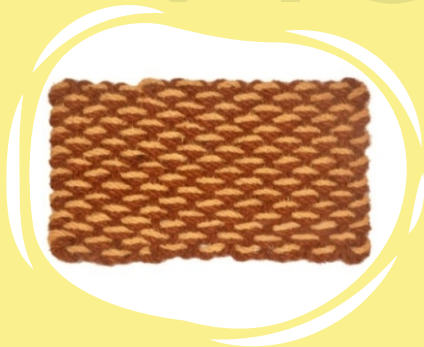

These mats, known as Lovers Knot due to their inseparable construction by hand using coir, are exclusively crafted from 100% natural coconut fiber yarns. Despite being handwoven, they are relatively simpler to produce, yet they remain sturdy, competing effectively against cheaper, non-biodegradable mat alternatives.

Rope mats are meticulously fashioned using two-ply or three-ply coir ropes, intricately tied into elegant knots and braids, and arranged in attractive flat, crisscross, or butterfly patterns. They come in rectangular, oval, or half-round shapes, with ends neatly tucked in or adorned with graceful fringes. Predominantly handcrafted with a high level of expertise

**Shape Options:** *Oval, Oblong and Rectangular*

**Style Options:** *Natural, Bleached, Dyed and Assorted Shades*

**Standard Size:** *40 x 60 CM, 45 x 75 CM, 60 x 90 CM*

## Coir Wire Brush Mat

Wire brush mats represent a distinct category among coir door mats. These mats showcase a cylindrical coir brush with radial bristles, setting them apart from conventional tufted designs. The brush provides a comfortable surface for wiping feet, while the radial bristles ensure comprehensive cleaning. With a durable steel frame, well-ventilated structure, and diverse brush patterns, wire brush mats offer both functionality and aesthetic appeal.

**Shape Options:** *Rectangular, half-round*

**Standard Size:** *40cm x 60cm, 45cm x 75cm and 60cm x 90cm*

## Boot Scraper Mat

A boot scraper coir mat is a type of wire brush doormat specifically designed to remove dirt, mud, and debris from the bottoms of shoes or boots before entering a building.

**Standard Size:** *30cm x 45cm*

# Rubber Backed Coir Mats

Rubber backed coir mats are made by blending coconut coir with rubber, forming a durable mixture. The blend is then molded into shapes, cured, and finished for quality.

## Rubber Backed Coir Mat: Brush Mats

These mats are created through hot pressing compounded rubber, derived from natural, synthetic, or reclaimed sources, onto the backside of coir brush mats, resulting in excellent brushing effects. These mats combine the luxurious appearance of golden coir fiber brushes with stylish rubber-molded graphics.

**Style Options:** *Natural, Bleached, and Stenciled shades*

**Standard Size:** 40 x 60 CM, 40 x 70 CM, 45 x 75 CM, 60 x 90 CM, 75 x 120 CM

## Rubber Backed Coir Mat: Matting Mats

The matting mats closely resemble brush mats, yet they are crafted from woven coir fabric rather than plain coir brush. This results in captivating crisscross weave patterns, enhanced by elegant rubber-molded graphics.

**Standard Size:** 40 x 60 CM, 40 x 70 CM, 45 x 75 CM
